Art Unit: 2821

DETAILED ACTION

1. In response to the communication dated November 07, 2001, claims 1-20 are active in this application.

Information Disclosure Statement

2. The information disclosure statement (IDS) filed on November 07, 2001 has been considered.

Oath/Declaration

3. Oath/Declaration filed on November 07, 2001 has been considered.

Drawings

4. The drawings are objected to because in figures 9-10, the number "module 28" should be changed to --module 30--. A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

Specification

5. The disclosure is objected to because of the following informalities: on page 6, line 13, the phrase "interior compartment 46" should be changed to --interior compartment 38--.

Appropriate correction is required.

6. The disclosure is objected to because of the following informalities: on page 7, line 11 and 25, "module 28" should be changed to --module 30--.

Appropriate correction is required.

Art Unit: 2821

7. The specification has not been checked to the extent necessary to determine the presence of all possible minor errors. Applicant's cooperation is requested in correcting any errors of which applicant may become aware in the specification.

Claim Objections

8. Claim 13 is objected to because of the following informalities: in line 1, the phrase "the headrest portion" should be changed to --the headrest--. Appropriate correction is required.

9. Claim 15 is objected to because of the following informalities: in lines 4-5, the phrase "the headrest position" should be changed to --the headrest portion--. Appropriate correction is required.

10. Claims 16-18 are objected to because of the following informalities: the phrase "The support of claim 15" should be changed to --The system of claim 15--. Appropriate correction is required.

Double Patenting

10. A rejection based on double patenting of the "same invention" type finds its support in the language of 35 U.S.C. 101 which states that "whoever invents or discovers any new and useful process ... may obtain a patent therefor ..." (Emphasis added). Thus, the term "same invention," in this context, means an invention drawn to identical subject matter. See *Miller v. Eagle Mfg. Co.*, 151 U.S. 186 (1894); *In re Ockert*, 245 F.2d 467, 114 USPQ 330 (CCPA 1957); and *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970).

A statutory type (35 U.S.C. 101) double patenting rejection can be overcome by canceling or amending the conflicting claims so they are no longer coextensive in scope. The filing of a terminal disclaimer cannot overcome a double patenting rejection based upon 35 U.S.C. 101.

11. Claims 1-20 are provisionally rejected under 35 U.S.C. 101 as claiming the same invention as that of claims 1-20 of copending Application No. 10/054,076. This is a

Art Unit: 2821

provisional double patenting rejection since the conflicting claims have not in fact been patented.
